----------	------	----------------------------	---------------------------	--------------------------	--------	--------------------	---------------------------------	-------	--------------------

MINNESOTA, Central and South Central

Watonwan County

5.5 SW Butterfield to 5 SSW Butterfield	01	1814CST 1819CST	1.5	440	0	0	2M		Tornado (F3)
--	----	--------------------	-----	-----	---	---	----	--	--------------

Initial damage occurred at farmstead just east of the Watonwan/Cottonwood line. Damage included the partial removal of roofs off two large sheds, along with scattered downed trees. The tornado then moved across corn and bean fields. Another farmstead was hit just southwest of the intersection of County Roads 10 and 2. This was the location of the F3 damage. A house was leveled, a 60 foot concrete base silo was toppled and rolled. Virtually all barns, sheds and outbuildings were completely destroyed

Watonwan County

1 E Echols to 4 S St James	01	1833CST 1842CST	3	100	0	0	500K		Tornado (F1)
-------------------------------	----	--------------------	---	-----	---	---	------	--	--------------

The tornado developed near Mary's Lake and moved across corn and bean fields before striking a farmstead just northwest of County Roads 10 and 27. Nearly empty grain bins were dented, sheds demolished, and a 32 foot camper was destroyed. A house lost its garage, part of its roof, and was pushed off its foundation. A large vehicle was also pushed a couple of hundred feet. Shortly after hitting the farmstead, it veered southeast into some fields, where it dissipated.

Watonwan County

4 S St James to 3.5 SSE St James	01	1844CST 1847CST	1	50	0	0	500K		Tornado (F1)
-------------------------------------	----	--------------------	---	----	---	---	------	--	--------------

Shortly after another tornado dissipated at 1842 CST four miles south of St. James, another tornado quickly developed about 1/4 mile away. It moved across corn and bean fields until it struck a farm just southwest of County Roads 110 and 122, where it destroyed machine sheds and removed the roof of the barn. It continued moving northeast before veering to the north, where it dissipated as it hit an abandoned farmhouse.

Watonwan County

1 N Odin	01	1847CST 1848CST			0	0			Funnel Cloud
----------	----	--------------------	--	--	---	---	--	--	--------------

Funnel appeared like it would soon reach the ground.

Nicollet County 4 WSW Nicollet to St Peter	24	1630CST 1700CST	15.5	880	0	7	3.5M		Tornado (F3)
		The tornado began with a very narrow path and gradually expanded to a half mile wide multiple vortex tornado. One home in Nicollet lost much of its upper floor, and other homes suffered major damage, including some being shifted off their foundation. The tornado continued east along Highway 99, producing major damage to houses, farm buildings, and a power substation. It did its most severe damage on the southern outskirts of St. Peter, where a house was completely leveled. A total of 57 homes properties in Nicollet County were damaged, and several homes had to be totaled out. A spokesman from the St. Peter Community Hospital said several persons were admitted with severe wounds, such as broken bones. The tornado crossed the Minnesota River near the southern city limits of St. Peter, and entered Le Sueur County near the city of Kasota (see separate entry).							
Wright County Monticello	24	1640CST			0	0			Hail(0.75)
Le Sueur County Kasota to 4 NW Waterville	24	1700CST 1725CST	17.5	880	1	30	20M	4M	Tornado (F3)
		The F3 tornado that began in Nicollet County at 1630 CST moved into Le Sueur County near the northern city limits of Kasota.

MINNESOTA, Central and South Central

Over 100 homes suffered some damage, dozens of homes had major damage, and three were completely leveled. The tornado moved east-northeast for about ten miles in Le Sueur County, then turned and moved east-southeast until dissipation. Hundreds of farm animals were killed, including 200 cows at a large dairy. Approximately five thousand acres of corn and soybeans were estimated to be ruined across the county. A State Farm spokeswoman said the company expected 4,500 homeowner claims and 8,000 auto claims from the storm. Some information provided by the Star Tribune newspaper. A 91 year old man perished in the upper floor of his home when a tree crashed through the roof. M91PH
